

Certificate of Analysis

Client : Mr.J L A Jayawardena
Senior Manager (EMT Laboratory)
SriLanka Land Reclamation & Development
Cooperation, Welikada, Rajagiriya.

Nature of Sample : Dried sea sand

Number of Samples : 20

Collected by : Client

Date of Receipt : 06th January 2005

Tested for : Water soluble Chloride & Sulphate

Analysis Performed : from 06th January to 14th February 2005

Certificate number : WQ/2005/002

Date of Issue : 16th February 2005

Total number of Pages : Two

Annexure : None

Analysis Performed according to :

Table (1) : Analytical Methods Used in the Determination of Each Samples.

Parameter	Method	Principal
Chloride (water soluble)	BS 812: Part 117 : 1988(1:1,sand:water)	Titrimetry
Sulphate (water soluble)	BS 812: Part 118 : 1988(1:2,sand:water)	Gravimetry

All chemicals used in the analysis were of Analytical Grade (AR).
